Subject: RE: Agenda for PCB Technical Call

Kelly,

Thanks for the clarifications. Glad to have you co-lead on this issue in the circumstances. While background on the circumstances is important for context, I do want to focus the discussion on the regulatory issues underpinning the issue and get feedback from the other regions on their current practices/application of the regulations. **I'm proposing the final ask be bolded to emphasize this.**

Also, I made a change to clarify that Region 3 is raising the third topic on Superfund sites.

Changes to what you just sent are highlighted below. If these are OK then Kim can go with them. I take it you want her to include the Region 3 summary you attached to the meeting materials being distributed?

Peter

Subject: Re: Agenda for PCB Technical Call

Hi Kim - Peter Gimlin provided you with an item regarding an agenda item which Region 3 wishes to co-lead since it is a Region 3 matter. He shared it with me and there are some inaccuracies which needed to be addressed. Below is the updated item. Region 3 would also like to provide the attached supporting document. Thanks.

Subject: RE: Agenda for PCB Technical Call

Hello Colleagues,

Our next PCB Coordinators/Technical Call is scheduled from 1:30 to 3 pm EST on February 11, 2019.

Our call in #:

Conference Line/Code / Ex. 6

 access code

Conference Line/Code / Ex. 6

Please send me any agenda topic you would like to discuss by Noon on Thursday (February 7, 2019).

I added one that I had received from R9 in December. Carmen, please confirm if this is still on the agenda.

→ [Join by Skype Meeting](#)

Potential Agenda

1. Region 9: Cleanup of metal drinking water tanks coated with coal tar – This topic is a Region 9 presentation involving about six to 9 slides. The presentation will be sent ahead of the call. Among other things, the presentation captures the approach we are following for cleanup of coal-tar-coated drinking water tanks and the finding of these tanks in tribal lands.

Kimberly N. Tisa, PCB Coordinator
